To Whom It May Concern:

**Re: Rosenblatt Associates**

We are privileged to write this testimonial in support of Rosenblatt Associates who we first met during 1994 to assist us on an immigration matter that was undertaken with enthusiasm and professionally completed to our satisfaction. Since then, Rosenblatt Associates who are experienced immigration experts have helped us on many immigration matters including obtaining permanent residence status for four of our brothers, relatives, friends and their families, many of who are now Canadian Citizens.

Rosenblatt Associates have been our Barristers & Solicitors and Legal Counsel for well over a decade and we can attest to their professionalism and capability which has been demonstrated by their ability to advise and represent us on all our business and personal interests and investments that included the incorporation of our companies, execution of contracts and agreements, real estate and leases, guidance with labour, employment and employee relations and, of course, rendering sound advise on all aspects of Canadian laws and other legal matters.

We are in particular grateful to the legal counsel and services rendered by Rosenblatt Associates to our Corporations which have enjoyed significant growth over the years and we wish to state that their reliable service and assistance with legal issues have been a part of the success of our enterprises, doing business in many states in the northeastern United States of America and provinces across Canada.

We take this opportunity to sincerely thank Rosenblatt Associates for all their assistance during the past years and we strongly believe that their good counsel and services will be available to us for many years to come.

It is also with great pleasure that we wholeheartedly recommend Rosenblatt Associates as not only an excellent law firm, but also as a very reliable and trustworthy immigration law firm that will endeavor to sincerely help achieve their clients' needs.

Sincerely,

A handwritten signature in black ink, appearing to read "Benjamin Moses", written over a horizontal line.

Benjamin Moses
